1. At 1400 hours today I contacted Deputy Director of Security, to inform him that I had heard that the DCI was in agreement with the paper submit by Dr. Wheelon which suggested a surfacing of the KEDLOCK which at Edwards Air Force Base. I also asked whether people were proceeding to contact other covernment Agencies in their briefings. He stated that there is a temporary holddown on that, because Mr. Banner has not yet ascertained whether the DCI has approved for Bannerman's draft notice to the members of USIB. Untitat is approved has directed that we withhold notifying other Government Agencies.  2. I pointed out that we are proceeding to notify a sey individuals in industry and that this program should be completed by this evening or tomorrow morning at the later expressed my concern that there could be playbacks from industry and other Government Agencies on the proposed surfacing. He agreed that this did present a real problem, it is matter of hours to brief personnel from other Government.	GOLGANIACA ALALIA. 🗴 TEMBOLARI GOLG	ОХС-3506 Сору <u></u> 4 от <u>4</u>
